ROBERT VEITCH & SON,

IMPORTERS, GROWERS AND DEALERS IN

SEEDS, PLANTS, BULBS AND FLOWERS

974 CHAPEL STREET,

NEW HAVEN, - - - CONN.

NOTICE.

Though we thoroughly test our seeds before sending them out, many seeds of the best possible quality will fail through improper treatment. More failures result from this than from any other cause. The necessary conditions are, a proper temperature, sufficient moisture, and free access of air; if the surface of the soil gets baked by heavy rains it will be impossible for the young seedling plants to force their way through, and the Seedsman is blamed in consequence. For these reasons we explicitly state *that while we exercise the greatest care to have all seeds pure and reliable, we do not give any warranty expressed or implied.*

If the purchaser does not accept the seeds on these conditions they must be returned at once.

SEEDS BY MAIL.—All seed, in packages and by the ounce, will be sent by mail at Catalogue prices, postage prepaid, but seeds by the pound *require an extra payment of eight cents per pound.*—*Corn, peas and beans require an extra payment of fifteen cents per quart to prepay postage.*

PLANTS BY MAIL.—All plants will be sent by Mail, postage prepaid, at the prices quoted for single plants, *but at dozen rates ten per cent. addition* to the price must be sent to prepay postage.

No charge for baskets, boxes, or packing on any order exceeding \$1.00 in value. Bags charged at cost price, and credited on account if returned in good condition within thirty days after date of purchase.

All orders from unknown correspondents must be accompanied with a remittance or satisfactory reference. To regular customers accounts are payable July 1, 1895.

NOVELTIES IN SEEDS

And other Varieties of Recent Introduction.

BEANS, BURPEE'S BUSH LIMA. This is a true large seeded Lima, the beans large, pods full and very abundant bearer, dwarf branching habit. Per $\frac{1}{2}$ pt. 15c., per qt. 50c.

CORN, WHITE COB CORY. As early as the extra early Cory, but with white cob and kernels, finest flavor. Per ear 5c., per doz. ears 40c.

ONION, PRIZE TAKER. An improvement on the large Spanish Onions, the roots are very large, of a bright straw color, the flesh is pure white, very tender, and delicate flavor. Per pkt. 5c., oz. 30c., lb. \$3.00.

ONION, WHITE PEARL. A medium sized pure white variety, of perfect globular shape, very early, solid and good keeping quality. Pkt. 5c., oz. 35c., lb. \$3.50.

PEAS, NOTT'S EXCELSIOR. A dwarf wrinkled variety, producing very large full pods, and of unexcelled quality, one of the best new Peas yet originated. Per $\frac{1}{2}$ pt. 10c., per qt. 40c.

PEAS, VICTORY. An extra large wrinkled sort, bearing enormous pods, very strong stiff stalks, and a tremendous cropper. Per $\frac{1}{2}$ pt. 10c., per qt. 40c.

TOMATO, ARISTOCRAT. This variety is almost erect in habit, strong stems, the fruit is perfectly round, smooth and very solid. An abundant bearer and one of the earliest. Pkt. 10c.

TOMATO, BUCKEYE STATE. A decided improvement on the Ponderosa, very large, smooth and solid, the heaviest Tomato in existence, very sturdy growth and an abundant bearer. Pkt. 5c., per oz. 35c.

COSMOS, MAMMOTH PERFECTION. The flowers are double the size of the ordinary Cosmos, measuring over one foot in circumference, the petals are broader and form a perfectly round solid flower.

Mammoth Pink, per pkt. 15c.

Mammoth White, per pkt. 15c.

Mammoth, mixed colors, per pkt. 15c.

DAHLIA, JULES CHRETIEN. A new very dwarf single strain growing about one foot high, and blooming the first year from seed. A valuable bedding plant flowering from June till late in the autumn, also well adapted for pot culture, in a great variety of colors. Per pkt. 15c.

DELPHINIUM SULFUREUM. A new type of hardy Larkspur, with beautiful yellow flowers, resembling the finest orchids. Per pkt. 15c.

IMPATIENS SULTANI NANA. A dwarf variety of the popular "Sultan's Balsam" that for pot culture or bedding purposes will be indispensable. Per pkt. 25c.

IPOMÆA PURPUREA FLORA PLENA. The first double flowered variety of the common Morning Glory that has yet been introduced. Per pkt. 20c.

NEMESIA STRUMOSA SUTTONI. A new annual from Africa, it produces large single flowers in the greatest abundance from June to September, the colors vary from creamy white and yellow to orange and carmine. Per pkt. 25c.

PANSY, GOLDEN QUEEN. In this variety we have a true large flowering form of the pure yellow pansies. Per pkt. 25c.

PAPAYER GARIEPINUM. An annual Poppy from South Africa with finely toothed foliage, throwing up numerous flower stems bearing flowers of a light scarlet color over two inches in diameter. Per pkt. 25c.

RICINUS ZANZIBARIENSIS. This new variety of Castor Bean produces gigantic leaves, very much divided, and in addition to the strong growth the decided branching habit, makes it remarkably well adapted for decorative purposes. Per pkt. 15c.

SWEET PEAS. New and scarce varieties.

Blushing Beauty, soft pink, suffused with lilac, oz. 25c.

Bronze King, distinct coppery bronze, with pure white wings, strong habit and extra large flowers, oz. 25c.
